

I am writing to state my concern over the possibility of losing the capability of being able to listen to K-LOVE on 91.1 FM if LPFM is introduced. My family listens to this station on a daily basis. The music and programming it provides has a very positive influence on our lives that so many other stations do not. It would create a great void in the community, if we were deprived of its broadcast by introducing LPFM. I am exposed to many stations at work and elsewhere, but this one is one of the very few that makes me feel positive about myself, and doesn't tear down the morale our country was built on. Please reconsider the introduction of LPFM. Thank you for your time.    Ilene K. Olsen
